.PHOTOGRAPHY

MY MILLION EYES

I use photography to tell something ambiguous and vague. Replacing the words with images. Showing the feeling with ambiance and contrasty.

It is more than just about click the shutter. It is about appreciation of the objects, capturing true meanings of the message, moments and each seconds of it.

To be honest, when I started to be offered by Yodhi to get my curriculum vitae done, I wasn't sure he could pull this off because my curriculum vitae is quite long and so much to tell about my work, but he certainly did it very well. He managed to summarize my curriculum vitae and make it more simple with minimalist design, as I requested. Yodhi's work consistently bring his all and I truly appreciate that. Good work, as always!
